Re Docket 2008-196-E

As an Intervenor in this case I support the schedule change requested by the "SCEUC" and "CMC" Steel .

I believe this is a most important decision you are being asked to make and feel the consequences of a hasty one may be forever regrettable. The future of this State, It's land, and livelihood of it's residence, could be negatively changed. Rushing into a decision with so many questions unanswered would not be wise.

Thank you for considering this matter..

What are the possibilities of being able to see the location before September tenth?

Sincerely,

  
Mildred McKinley
